

Probability Level 1 Jigsaw

Probability Level 1 Jigsaw

Probability Level 1 Jigsaw

Thanks to Alan Catley
whose original Jigsaw I
have adapted to produce
this.

Instructions.

Print on to card and laminate. If making a class set it is best to use a different colour for each jigsaw so they can easily be sorted. Cut out the pieces.

Jigsaws are best done in small groups of 2 or 3. They help students discuss the problems, think about the maths and reconsider misconceptions.
